ESSENTIAL INSPIRATION FOR CREATIVE MINDS

USP INSPIRE:
WRAPPED & RUCHED

Ruching, wrapping and **gathering** for **womens** and **menswear** has been popular on recent catwalks, plus **accessories** and **interiors** have dramatic ruched effect or pleated aesthetics.

L'Arc de Triomphe, Wrapped, a temporary installation designed by the late artists **Christo and Jeanne-Claude**, covered the famous Parisian monument in recyclable silvery fabric, as a tribute to the artists.

"The fabric is very reminiscent of Paris rooftops... which are very silvery gray... (Christo) liked colours that also change with the weather, or the time of day."

Richard Malone's recent S/S 22 collection features exaggerated, structural silhouettes and ruched detailing, whilst **LOEWE's** show wrapped contorted shapes in stretch fabric.
