Indie style from the late 2000's to early 2010's is making a comeback. *"The look is a messy amalgam of '90s grunge and '80s opulence with a slightly erotic undertone, topped off with an almost pretentious take on retro style,"* described by *British Vogue*.

Original indie artists, the **Arctic Monkeys**, **Uffie**, **M.I.A.**, **Santigold**, and **Hotchip** have all released new music this year, whilst *The Cobrasnake: Y2Ks Archives* book by photographer **Mark Hunter** looks back on the era of wild, messy celeb parties.

The Instagram account, **@indiesleaze** has gained over 100K followers, documenting the decadence of the time and the indie party scene. Plus, "the dirtbag boyfriend is 2022's hottest accessory", according to *i-D* magazine.
